23 March 2023

This Managed Account Model Portfolio Guide must not be distributed without a corresponding copy of the Investor Service Guide which comprises the IDPS Guide and Product Disclosure Statement for the OneVue Managed Account, of which this document forms part.

## Important information

This document is part of the Product Disclosure Statement (PDS) for the Managed Account contained in the UMA Select Investor Service Guide issued by OneVue Wealth Services Ltd ABN 70 120 380 627, AFSL 308868, (OneVue Wealth) the Responsible Entity of the Managed Account. This document must be read together with the UMA Select Investor Service Guide, (the Investor Service Guide) which contains essential information about the Investor Service.

None of the Investment Managers named herein or any of their associates and subsidiaries has prepared this document, or is responsible for its contents.

The information in this document is general information only and does not take account of your individual objectives, financial situation or needs. You should assess whether this information is appropriate for you. You should consult a licensed financial adviser before making any decision to invest in the Investor Service. No one described in this document assures or guarantees the success of your investment, any particular Managed Account Model Portfolio, the repayment of capital or a particular rate of return.

The performance of each Managed Account Model Portfolio is dependent on the performance of the underlying investments in the selected Model Portfolios which can fall as well as rise in value, resulting in capital losses or capital profits. Investors should not take past performance as an indication of future performance. The general market and economic conditions that existed in the past could be different in the future and these differences could have significant impact on investment returns.

All of the Investment Managers have given and have not withdrawn their written consent to being named in this PDS as the Portfolio Manager in respect of the Model Portfolios included in this Managed Account Model Portfolio Guide in the form and context in which they are included. Investment Managers do not make any other statements in this PDS.

The Investment Managers are responsible for managing the Model Portfolios in accordance with the key investment parameters set out in this Managed Account Model Portfolio Guide. They do not hold any assets on your behalf nor are they responsible for executing trading in the underlying investments.

The Investment Managers are the owners of all intellectual property in the selection process used to determine each Model Portfolio and that intellectual property must not be disclosed or used other than for the purpose of obtaining advice on, or for the administration, monitoring, management, and the satisfaction of legal obligations in respect of, the investor's account.

From time to time new Model Portfolios and Investment Managers will be added. You can find this information in the Secure Online Portal.

OneVue Wealth carries out the investment management function for the following Model Portfolios: ARK 3D printing Strategy; ARK Disruption Innovation Strategy; ARK Next Generation Internet Strategy; ARK Genomic Revolution Strategy; ARK Industrial Innovation Strategy; ARK Israel Innovation Technology Strategy. In doing so, we aim to minimise any potential conflict of interest by implementing in full the investment recommendations of a respected independent international investment research company and we pay them the full amount of the investment management fees that are charged in these portfolios less our Responsible Entity fee.

Above the Index, which is an investment manager for some of the model portfolios offered, is a Corporate Authorised Representative of OneVue Wealth. They do not receive any remuneration or other benefits from OneVue Wealth Services Ltd aside from the fees they charge for investment management.

## Model Adviser

---

**ARK Investment Management LLC ('ARK')** - Founded in 2014, ARK is a New York based asset manager offering global thematic strategies that capitalise on the investment opportunities created by disruptive innovation. ARK believes that innovation is key to the long-term growth of company earnings, revenues and profits. By identifying and investing in public companies that are the leaders, enablers, and beneficiaries of disruptive innovation, ARK's strategies aim to deliver superior long-term capital appreciation and outperformance with low correlation to traditional investment strategies.

Catherine D. Wood founded ARK with over 35 years of experience in thematic investing, including her previous 12 years as the CIO of Global Thematic Strategies for AllianceBernstein managing over \$5 billion.

## Investment Managers

---

**Above The Index Asset Management (ATI)** is a boutique Australian equity manager, specialising in the manufacture of low-cost, value-adding Australian share portfolios. Established in September 2004, ATI's investment style is premised on a 'relative value' methodology, meaning that investments are generally purchased and held as long as they represent relatively good value. ATI focuses on selecting those companies whose share prices appear cheap relative to the universe of shares and the GICS industry sector that they are in. The process is designed to outperform the relevant benchmark index in both rising and falling markets. The process also enables the replication and enhancement of passive benchmark index Model Portfolios.

---

**Aoris Investment Management Pty Ltd ('Aoris')** was established in 2017 by Stephen Arnold and Michele Martinez. Aoris is an independent investment manager and is 100% owned by its staff and directors.

Prior to establishing Aoris, Stephen was Head of International Equities at Evans and Partners for over six years and managed international portfolios with assets in excess of \$1bn. The investment performance of those portfolios over that period significantly outperformed their benchmark and ranked in the top 10% of all international equity funds available in Australia, as measured by major asset consultants. Stephen has held senior roles at Goldman Sachs Asset Management and Colonial First State, and earlier in his investment career worked at Platinum Asset Management and BT Investment Management.

Michele was employed at Platinum Asset Management for 23 years in a variety of senior operations roles before founding Aoris with Stephen. Michele also spent seven years at BT Investment Management.

---

**Ausbil Investment Management** (Ausbil) is a leading Australian based investment manager. Established in April 1997, Ausbil's core business is the management of Australian and global equities for major superannuation funds, institutional investors, master trust and retail clients. Ausbil manage over \$11.6\* billion in active Australian and global equity investments. Ausbil is owned by its employees and New York Life Investments (NYLIM), a wholly-owned subsidiary of New York Life Insurance Company. NYLIM has more than US\$561\* billion in assets under management. NYLIM has a number of boutique affiliates including MacKay Shields, Candriam Investors Group, Private Advisors and GoldPoint Partners.

\* As at 28 February 2019.

**Clime Asset Management** is an independent Australian equity funds manager focused on a value-based investment process. Established in 1996, Clime Investment Management is a publicly listed funds management group (ASX:CIW). Clime's objective is to utilise its value-based investment process in a disciplined and sensible manner, and execute its obligations to investors with efficiency and integrity. Run by an experienced team of investment professionals, Clime is dedicated to providing exceptional investment returns to investors.

**DNR Capital** is an Australian investment management company that delivers client-focused, quality, investment solutions to institutions, advisers and individual investors.

Founded in 2001, DNR Capital specialises in the delivery of individually and separately managed accounts in the Australian market and aims to deliver investment out-performance to investors.

DNR Capital is a signatory to the Principles for Responsible Investment ('PRI').

---

**Fat Prophets** was founded in 2000 by Sydney stockbroker Angus Geddes. The company has since grown to become an internationally recognised and trusted financial services brand. From modest beginnings in Australia, Fat Prophets has expanded its foot print to include offices in Sydney, London and Auckland.

Over this period Fat Prophets has established a long term track record in stock selection and portfolio management coupled with a strong commitment to transparency and accountability in all areas of its business.

Fat Prophets believes that long term returns can be achieved by combining a value driven fundamental assessment of a stock's future prospects, with underlying trends and a top down appraisal of key macro-economic factors. Underpinning this is a strong contrarian approach to stock selection and a fundamental bias towards value.

**Franklin Templeton Investments** - Franklin Resources, Inc. [NYSE:BEN] is a global investment management organisation operating as Franklin Templeton Investments. Franklin Templeton Investments provides global and domestic investment management to retail, institutional and sovereign wealth clients in over 170 countries. Through specialised teams, the company has expertise across all asset classes—including equity, fixed income, alternative and custom solutions. The company's more than 650 investment professionals are supported by its integrated, worldwide team of risk management professionals and global trading desk network. With offices in more than 30 countries, the California-based company has 70 years of investment experience and over A\$992.6 billion in assets under management as of September 30, 2018.

**Hyperion Asset Management** is a boutique Australian equities fund manager founded in 1996. It aims to deliver investment outperformance for clients across a full equity market cycle as it thinks like business owners rather than as short-term stock pickers. The investment team is committed to delivering outperformance into the future.

The cornerstone of its approach is its proprietary investment process which identifies quality companies that demonstrate sound economics, long term sustainability and a competitive advantage.

**JBWere** provides a wide range of, advisory and wealth management services to a substantial and diversified client base.

It seeks to be the adviser of choice for clients throughout Australasia and, through its financial networks, provide leading capabilities that extend to financial markets globally.

JBWere provides extensive services, across every major asset class, to many private clients throughout Australia and New Zealand.

The principles of integrity and dedicated client service, astute market knowledge and a commitment to excellence are ingrained in the firm's culture. These values, combined with quality research and investment products, make JBWere a trusted partner for many investors.

**Lonsec Investment Solutions Pty** (ABN 95 608 837 583) is a corporate authorised representative (CAR 1236821) of Lonsec Research Pty Ltd (ABN 11 151 658 561, AFSL 421 445). Lonsec believes in active management and seeks to add value by investing in a concentrated portfolio of quality companies trading at a reasonable price (QARP). The key elements of Lonsec’s investment philosophy are:

- quality stocks at a reasonable price (QARP)
- concentrated portfolios
- low turnover, and
- strong risk management.

Founded in 1995, **Private Portfolio Managers Pty Limited (PPM)**, is a privately owned boutique investment manager with a well established track record of constructing concentrated Australian and Global equity portfolios for our clients and their financial advisers. Our investment objective is to grow our clients’ portfolios over the long term using a disciplined & well researched investment process which seeks protection of capital with risk assessed tax effective returns. PPM offers Individually Managed Account (IMA) and Separately Managed Account (SMA) investment solutions across a number of broad investment strategies including balanced, income and growth style portfolios.

**Proactive Portfolios Pty Ltd** is a firm set up to deliver multi – asset class portfolios for financial advisers and their clients. The Proactive Portfolios approach to portfolio management is:

- active in the use of expert investment inputs in the management of both asset allocation and asset selection within asset classes
- proactive in the management of asset allocation across asset classes using a relative value approach which uses long term fair value as a benchmark for comparison against market prices for assets, and
- value based in asset selection and focused on not paying too much for assets within asset classes by using a fair value benchmark for asset acquisition

**Ralton Asset Management Limited** is a boutique investment manager owned and operated by experienced investment professionals. It is a highly focused value manager with an investment philosophy and research-driven investment approach that has been developed over many years. And as one of Australia’s only managers specialising in separately managed accounts, Ralton is able to combine active portfolio management with the best features of direct share ownership. The end result is a highly transparent and tax efficient investment portfolio professionally managed by Ralton.

**Renaissance Property Securities** (Renaissance) was established in 2003 by well-known fund manager Carlos Cocaro and Damien Barrack as a specialist investment manager of listed property securities portfolios. Renaissance currently manages approximately \$510 million of listed property securities.

SG HISCOCK & COMPANY

**SG Hiscock** (SGH) was founded by Stephen Hiscock and 5 other principals in August 2001 and is 100% owned by staff. The principals were formerly employed at National Asset Management (NAM), a subsidiary of National Australia Bank Limited. SGH has a range of funds and a mix of wholesale clients in Australia as well as a number of high net worth and retail clients.

**Watershed Funds Management (WFM)** is a specialist Separately Managed Account (SMA) Provider and has been a pioneer in the delivery of these portfolio solutions to financial advisers. WFM leverages the expertise of a highly credentialed investment team to form a global thematic view that determines asset class and sector allocations. Our investment committee structure differs for each SMA and is chaired by an individual with niche expertise and a proven track record for managing portfolios within that asset class. With a research process that is both rigorous and thorough we have been able to deliver strong historical returns across our full suite of SMA's.

An investment in a Watershed SMA provides professional and active investment management with full transparency of holdings, transactions and structure. Watershed seeks to form a collaborative relationship with advisers, actively communicating portfolio strategy in the current market environment so that advisers are better equipped to communicate with their clients.

## ATI 20 Balanced Growth

<b>Benchmark</b>	ASX 300 Accumulation Index
<b>Investment universe</b>	Cash ASX listed securities, with a focus on the S&P/ASX 300 Initial Public Offerings (IPOs)
<b>Investment objectives</b>	The Model Portfolio aims to outperform the S&P/ASX300 Accumulation Index over periods of 5 or more years. The Model Portfolio seeks to provide investors with consistent, tax effective capital growth and income over the investment horizon.
<b>Investment strategy</b>	<p>Stocks are selected primarily on their relative valuation and growth profile in conjunction with a risk control overlay taking into account sector diversification. The portfolio is adjusted as the relative valuation rankings change.</p> <p>The Model Portfolio invests in a range of companies listed on the Australian Stock Exchange. These investments may include shares and units in property securities. The Model Portfolio is managed on a long only basis and the use of leverage is not permitted. Taxation effects are generally considered before switching between holdings. The “tax aware” nature allows the portfolio to realise capital losses while allowing, where feasible, unrealised gains to remain unrealised each year. Tax parcels are optimised to take advantage of any capital gains discounts (e.g. the 12 month holding rule), and also the 45 day rules for dividend franking credits.</p>
<b>Designed for investors who</b>	<ul style="list-style-type: none"> <li>• Seek a diversified, balanced portfolio that utilises a risk controlled, disciplined active management style.</li> <li>• Seek long-term capital growth with some income by investing in tax aware, low turnover portfolio of ASX listed securities.</li> </ul>

## DNR Capital Australian Equities Socially Responsible

<b>Benchmark</b>	S&P/ASX 200 Accumulation Index
<b>Investment universe</b>	<ul style="list-style-type: none"> <li>ASX listed securities with a focus on the S&amp;P/ASX 200 Accumulation Index and</li> <li>Cash and short term money market securities.</li> <li>The portfolio does not invest in those companies that are judged to have direct involvement in pornography, gaming, armaments or tobacco.</li> </ul>
<b>Investment objective</b>	The investment objective is to outperform the S&P/ASX 200 Accumulation Index by 4% p.a. (before fees) over a rolling three year period.
<b>Investment strategy</b>	<p>The model portfolio has an investment style best described as style neutral, focusing on environmental, social and corporate governance issues. The security selection process has a strong bottom-up discipline and focuses on buying quality companies at reasonable prices.</p> <p>Company research focuses on quality and valuation. DNR Capital uses a five point 'quality web' in which five quality factors are reviewed. The key criteria are as follows:</p> <ul style="list-style-type: none"> <li>industry positioning to identify superior positioning, competitive advantage and ability to sustain returns.</li> <li>warnings strength as determined by quantitative data scores based on factors such as a security's return on equity (ROE).</li> <li>balance sheet strength as determined by quantitative data scores based on factors such as a security's net debt to equity ratio.</li> <li>a management score which is a subjective measure based on experience and extensive company meetings with weight given to those management teams with a history of good allocation of capital.</li> <li>an ESG score derived from the DNR Capital socially responsible assessment which utilises data from an external service provider as well as its own assessment.</li> </ul> <p>The portfolio is an actively managed portfolio that adopts a negative screening strategy, combined with an ESG ratings assessment. ESG integration and company engagement, to deliver responsible investment. The portfolio's negative screen precludes the portfolio from owning stocks with exposure to:</p> <ul style="list-style-type: none"> <li>Pornography - core business of production, distribution and sale of pornography.</li> <li>Gaming - core business of owning or operating a gaming related business or manufacture and supply of gaming equipment and systems</li> <li>Armaments - involved in the development and production of biological and chemical weapons, depleted uranium ammunition/armour, anti-personnel mines or cluster munitions/sub-munitions and their key components.</li> <li>Tobacco - involved in the production of tobacco, manufacture of nicotine alternatives and tobacco-based products.</li> </ul> <p>A positive ESG screen is used to identify those companies with enhanced ESG policies. DNR Capital sources ESG related information from data research provider Bloomberg as well as its own assessment.</p> <p>Where the security passes this assessment then a range of valuation methodologies are used to identify value having regard for the industry and circumstances of the business. Having identified securities with attractive quality and value characteristics, consideration is given to risk characteristics such as the security and sector correlations of investments.</p> <p>The portfolio construction process is also influenced by a top-down economic appraisal. A range of economic indicators are reviewed regularly and these measures are used to formulate an economic overview which provides a backdrop to investment decision making and influences portfolio construction.</p>
<b>Designed for investors who</b>	Want a competitive return but do not want their portfolio invested in companies that are judged to have a direct involvement in pornography, gaming, armaments and tobacco, or who want to ensure that their money is invested in companies that try to make a positive difference.

## JBWere Listed Fixed Income

<b>Benchmark</b>	Benchmark Unaware
<b>Investment universe</b>	<p>Listed ASX securities</p> <p>Selected ASX-listed bonds, hybrids and convertible notes/bonds researched by JBWere.</p> <p>While the portfolio aims to be fully invested at all times, a short-term allocation to cash may occur.</p>
<b>Investment objectives</b>	<p>Within the investable universe of ASX-listed fixed income instruments, to construct a relatively defensive portfolio that aims to:</p> <ul style="list-style-type: none"> <li>• have a capital preservation focus and one exhibiting a low level of capital and earnings volatility</li> <li>• adequately reward the investor for the credit, market and liquidity risk assumed</li> <li>• provide a steady and secure income stream</li> <li>• provide a solid absolute return that represents a premium to rates earned on term deposits</li> <li>• be liquid enough to ensure sufficient investing flexibility.</li> </ul>
<b>Investment strategy</b>	<p>To ensure the best opportunity to meet the portfolio's objectives JBWere focuses on the following investment selection criteria:</p> <ul style="list-style-type: none"> <li>• investment grade credit quality</li> <li>• the expected level and reliability of coupon payments</li> <li>• adequacy of the trading margin</li> <li>• the liquidity of the issue</li> <li>• the visibility of maturity or a value enhancing event (step-up, reset) that would likely trigger capital appreciation.</li> </ul> <p>Reflective of its focus as a defensive investment the portfolio is not expected to be a heavily-traded portfolio. Moreover, the general approach is to hold instruments to maturity; however, portfolio changes will be made in response to developments including:</p> <ul style="list-style-type: none"> <li>• changes in JBWere's tactical view</li> <li>• adverse changes in the credit quality of individual issuers or instruments</li> <li>• redemptions</li> <li>• compelling relative value opportunities.</li> </ul>

## Watershed Australian Share

<b>Benchmark</b>	ASX 200 Accumulation Index				
<b>Investment universe</b>	<ul style="list-style-type: none"> <li>• Cash</li> <li>• S&amp;P/ASX 200</li> <li>• ASX-listed Exchange Traded Funds (ETFs)</li> </ul>				
<b>Investment objectives</b>	The main objective of the Australian Share Portfolio is to provide market-leading returns over the medium to long term from a concentrated portfolio of Australian “blue chip” shares, aiming to deliver an investment return (after fees) that outperforms the S&P/ASX200 Accumulation Index over a rolling three-year period.				
<b>Investment strategy</b>	<p>The manager believes that macro-economic cycles drive the majority of share price performance, both short and long term. Recognising that economic cycles have major implications on the volatility of corporate earnings across industries, it seeks to exploit these cycles to achieve higher than index returns over time.</p> <p>Rigorous fundamental analysis is undertaken on businesses to ensure that the portfolio holds high quality investments and companies, shifting the allocation between asset classes and sectors (early, mid or late cycle cyclicals and defensive sectors) given the current and expected economic environment.</p> <p>Watershed also believe that short term market sentiment often creates divergence between valuations and market pricing and looks to exploit this by actively managing overall market exposure and cash weight.</p>				
<b>Designed for investors who</b>	Seek a concentrated portfolio of Australian shares offering medium to long term capital growth and some tax-effective income from their investments.

## Watershed Income

<b>Benchmark</b>	UBS Bank Bill Index
<b>Investment universe</b>	<ul style="list-style-type: none"> <li>• Cash</li> <li>• ASX-listed Corporate Bonds Exchange Traded Funds (ETFs)</li> <li>• ASX-listed Fixed Interest ETFs</li> <li>• ASX Hybrid and Debt Securities</li> </ul>
<b>Investment objectives</b>	To generate an income return of 2% above the official cash rate (after fees) from a concentrated portfolio of listed bond, hybrid and debt securities. The portfolio should be viewed as defensive with some capital volatility and is not expected to generate any long term capital growth.
<b>Investment strategy</b>	<p>Hybrid securities are higher-yielding investments, generally paying regular income to investors via a defined margin above the prevailing bank bill rate. They are particularly attractive to investors seeking superior yields than available from a cash account or term deposit in a low interest rate environment.</p> <p>The portfolio has a bias towards listed bond exposure and highly rated floating or variable rate securities to minimise interest rate risk, and investment grade issuers.</p> <p>The Investment Committee undertakes the following steps when constructing the portfolio:</p> <ol style="list-style-type: none"> <li>1. Review the current macro environment looking at where positioning in the interest rate cycle and other factors such as global credit spreads</li> <li>2. Evaluate key details of the issue to ensure it meets the investment criteria evaluating factors such as yield, credit quality of issuer, conversion details, franking, maturity date</li> <li>3. Undertake thorough analysis to isolate the securities that offer the best risk/return profiles</li> <li>4. Construct the portfolio then constantly monitor and formally review on a weekly and monthly basis.</li> </ol>
<b>Designed for investors who</b>	Seek higher yields than cash and term deposits and are comfortable with some capital volatility.

## Watershed Emerging Leaders

<b>Benchmark</b>	ASX Small Ordinaries Accumulation Index	
<b>Investment universe</b>	ASX ex-100 but greater than 100M in Market Capitalisation	
<b>Investment objectives</b>	To outperform the Small Ordinaries Accumulation Index over the medium to longer term (three to five years) by 2-3%	
<b>Investment strategy</b>	<p>The SMA strategy is to identify, and invest in, mispriced listed companies using a fundamental “bottom-up” stock picking approach. Watershed recognises that investment markets are regularly inefficient with regard to the appropriate market pricing of securities, particularly within the market for smaller to mid-cap listed companies. Generally, companies outside the S&amp;P/ASX 100 are not as comprehensively researched as the larger companies. Further, given that many of these smaller companies are typically at the earlier stages of their growth cycle (i.e. emerging growth companies), they are often not fully understood nor appropriately priced by the market relative to their true growth prospects.</p> <p>Watershed’s investment philosophy recognises the existence of pricing inefficiencies, and is focused on conducting in-depth research to identify, appropriately value, and invest in undervalued companies. All investments must offer a clear path (i.e. catalyst) for a positive re-rating to occur, and thereby support favourable investment outcomes.</p>

## Watershed International Share

<b>Benchmark</b>	MSCI World Index (excluding Australia)
<b>Investment universe</b>	Medium to Large Cap Listed International Shares and securities included in the MSCI World Index (excluding Australia) and listed on major International stock exchanges. The international stock exchanges currently offered for investment are listed in the 'Global Market Fees' schedule available on the Secure Portal.
<b>Investment objectives</b>	The objective of the Watershed International Share Portfolio is to provide attractive investment returns over the medium to long-term while reducing the risk of permanent capital loss. The Portfolio aims to outperform the MSCI World Index (excluding Australia) over a rolling three-year period by 2 - 3% per annum.
<b>Investment strategy</b>	<p>The Portfolio consists of investments in high-quality global securities and businesses whose shares are listed on major global stock exchanges. The Watershed philosophy for international equity investing is to invest only in businesses with a competitive advantage that operate in industries with high barriers to entry and that are managed by highly regarded managers. Furthermore, these businesses must deliver high returns on shareholders' equity with low gearing, and have a long track record of growth in sales, earnings and dividends.</p> <p>Watershed may also invest in high growth, non-dividend paying businesses if these businesses are dominant players and disrupters in their industries. However, investment in these type of businesses is the exception rather than the rule and exposure to these businesses is limited to no more than 15% of the portfolio.</p>
<b>Designed for investors who</b>	<ul style="list-style-type: none"> <li>• Seek long term capital growth and portfolio diversification</li> <li>• Have a longer-term investment horizon of at least five years and accept the risk of price fluctuations</li> </ul>
