**Issuer: Macquarie Investment Management Australia Limited**

**ABN 55 092 552 611 AFSL No. 238321**

### Important note

This Target Market Determination (**TMD**) describes the class of consumers that comprise the target market for the Fund, along with the distribution conditions, the review triggers and periods, and certain other information. It forms part of Macquarie Investment Management Australia Limited's design and distribution framework. Distributors must take reasonable steps that will, or are reasonably likely to, result in distribution of the Fund being consistent with the most recent TMD (unless the distribution is excluded conduct).

This document is not a product disclosure statement and is not a complete summary of the Fund's features or terms. This document does not take into account the investment objectives, financial situation or needs of any person. In deciding whether to acquire or continue to hold an investment in the Fund, a consumer should consider the Fund's product disclosure statement, available on our website at [macquarie.com/mam/pds](https://macquarie.com/mam/pds) or by contacting us on 1800 814 523. This information is intended for recipients in Australia only.

Important terms used in this TMD are defined in the 'TMD Definitions' available at [macquarie.com/mam/tmd](https://macquarie.com/mam/tmd). Capitalised terms have the meaning given to them in the Fund's product disclosure statement, unless otherwise defined. References to **the Act** are to the Corporations Act 2001 (Cth).

Other than Macquarie Bank Limited ABN 46 008 583 542 (**Macquarie Bank**), any Macquarie Group entity noted in this material is not an authorised deposit-taking institution for the purposes of the Banking Act 1959 (Commonwealth of Australia). The obligations of these other Macquarie Group entities do not represent deposits or other liabilities of Macquarie Bank. Macquarie Bank does not guarantee or otherwise provide assurance in respect of the obligations of these other Macquarie Group entities. In addition, (a) the investor is subject to investment risk including possible delays in repayment and loss of income and principal invested, and (b) none of Macquarie Bank or any other Macquarie Group entity guarantees any particular rate of return on or the performance of the investment, nor do they guarantee repayment of capital in respect of the investment.

### TARGET MARKET SUMMARY

The Fund is designed for consumers who:

- are seeking capital preservation and income distribution
- are intending to use the Fund as a standalone, major allocation, core component, minor allocation or satellite allocation within a portfolio
- have a minimum investment timeframe of twelve months
- have a low or medium risk/return profile for that portion of their investment portfolio, and
- require the ability to have access to capital within one week of request.

### TMD indicator key

The consumer attributes for which the Fund is likely to be appropriate have been assessed using a red and green rating methodology with appropriate colour coding.

In target market

Not in target market

### Consumer attribute definitions

Consumers should refer to the 'TMD definitions' available at [macquarie.com/mam/tmd](https://macquarie.com/mam/tmd) for the definitions of the consumer attributes (that is, the terms used in the 'Consumer attributes' column in the table below).

### Appropriateness

The issuer has assessed the Fund and formed the view that the Fund is likely to be consistent with the likely objectives, financial situation and needs of consumers in the target market as described below. The attributes of the Fund in the 'Description of Fund including key attributes' column of the table below are consistent with the corresponding consumer attributes identified with a green rating (in the 'TMD indicator for Fund' column).

## Investment products and diversification

A consumer (or class of consumer) may intend to hold a product as part of a diversified portfolio (for example, with an intended product use of minor allocation). In such circumstances, the product should be assessed against the consumer's attributes for the relevant portion of the portfolio, rather than the consumer's portfolio as a whole. For example, a consumer may wish to construct a balanced or moderate diversified portfolio with a minor allocation to growth assets. In this case, a product with a high risk/return profile may be consistent with the consumer's objectives for that minor allocation, notwithstanding that the risk/return profile of the consumer, as a whole, is medium. In making this assessment, distributors should consider all features of a product (including its key attributes). Please note that the 'Consumer's intended Fund use', which sets out the percentage of investable assets, is based on **all of the assets** that the consumer has available for investment (excluding the family home) and not, for example, only the relevant portion of assets the consumer is currently intending to invest.

DESCRIPTION OF TARGET MARKET OF FUND

Consumer's investment objective		
Capital growth	Not in target market	<p>The Fund provides exposure to the performance of the Bloomberg AusBond Bank Bill Index (<b>Index</b>) and is designed to generate a return equal to the Index returns (<b>True Indexing</b>). The Fund achieves this by:</p> <ul style="list-style-type: none"> <li>investing in fixed and floating rate securities, derivatives (including options, futures, warrants and forwards) and cash, either directly or through underlying funds managed by members of the Macquarie Group (<b>Underlying Investments</b>) with the aim of providing exposure that closely resembles the exposure of the Index, and</li> <li>entering into a swap agreement with Macquarie Financial Limited (<b>Swap Counterparty</b>). If the Underlying Investments outperform the Index, the Swap Counterparty receives this outperformance. If the Underlying Investments underperform the Index, the Swap Counterparty compensates the Fund to the extent of the underperformance.</li> </ul> <p>The Fund has the following key attributes:</p> <ul style="list-style-type: none"> <li>Provides passive exposure to cash and short-term fixed interest securities with no management fee while True Indexing applies.</li> <li>Designed to deliver pre-tax return that equals the Index return.</li> <li>Although the Fund will generally seek to distribute any net income on a quarterly basis, consumers should be aware that the amount of each distribution may vary or no distribution may be payable in a distribution period.</li> <li>Potential for capital preservation through exposure to fixed and floating rate securities, derivatives (including options, futures, warrants and forwards) and cash. However, there is no guarantee that the Fund will be able to preserve the capital in the future and the level of any capital preservation may vary materially, particularly for a consumer with a shorter investment timeframe than what the Fund has been designed for.</li> </ul>

<b>Solution/Standalone</b> (Up to 100%) May hold investment as up to 100% of total investable assets	In target market	<b>Asset allocation</b> Cash and fixed interest securities <sup>1</sup>   100% 1 The asset class refers to the asset class to which the Fund has economic exposure.
<b>Major allocation</b> (Up to 75%) May hold investment as up to 75% of total investable assets	In target market	While the Fund provides exposure to a narrow asset class, being cash and short-term fixed interest securities, it may be suitable for investors seeking a whole portfolio cash solution. Investors may wish to hold a large allocation to cash because they require liquidity and should consider if this is appropriate for their circumstances, taking account that they may receive lower returns relative to other asset classes with higher risk-return profiles. Please refer to <a href="https://macquarie.com/mam/tmd">macquarie.com/mam/tmd</a> for definitions.
<b>Core component</b> (Up to 50%) May hold investment as up to 50% of total investable assets	In target market	

<b>Minor allocation</b> <b>(Up to 25%)</b> May hold investment as up to 25% of total investable assets	In target market
<b>Satellite allocation</b> <b>(Up to 10%)</b> May hold investment as up to 10% of total investable assets	In target market

#### Consumer's investment timeframe

<b>Minimum investment timeframe</b>	<b>Twelve months</b>	Suggested minimum investment timeframe for Fund: Twelve months
-------------------------------------	----------------------	--

#### Consumer's risk (ability to bear loss) and return profile

The Fund's risk profile is assessed by taking into consideration the Standard Risk Measure (**SRM**) for the Fund, as disclosed in Section 5 of the Fund's product disclosure statement, and other indicators of risks which consider the potential frequency and size of negative returns.

Please refer to Section 4 of the Fund's product disclosure statement for more information on the risks of an investment in the Fund.

<b>Low</b>	In target market	The Fund provides exposure to the performance of the Bloomberg AusBond Bank Bill Index ( <b>Index</b> ) and is designed to generate a return equal to the Index returns ( <b>True Indexing</b> ).
<b>Medium</b>	In target market	The Fund has a low risk and return profile. For the relevant part of the consumer's portfolio, the consumer:
<b>High</b>	Not in target market	<ul style="list-style-type: none"> <li>has a conservative or low risk appetite</li> <li>seeks to minimise volatility and potential losses, and</li> <li>is comfortable with a low target return profile.</li> </ul>
<b>Very high</b>	Not in target market	The Fund has been assigned an SRM of 1; that is, it is estimated to experience less than 0.5 negative annual return over any given 20-year period.

#### Consumer's need to access capital

<b>Within one week of request</b>	In target market	Consumers can generally request to redeem all or part of their investment in the Fund by 12.00pm Sydney time on a Business Day. Redemption proceeds will generally be paid within five Business Days after we accept the redemption request.
<b>Within one month of request</b>	In target market	However, in some circumstances, such as where there is a suspension of redemptions, consumers may not be able to redeem their investment within the usual period or at all. For example, we may be required to suspend redemptions from the Fund (including indefinitely) where the Fund is no longer 'liquid', as defined in the Corporations Act. While the Fund is not liquid, we may, at our discretion, offer consumers the ability to redeem (wholly or partly) from the Fund but only if there are assets available that are able to be converted to cash to meet redemptions under the offer. Consumers should read the product disclosure statement for the Fund for further information on the potential for non-acceptance or delay of redemptions or a delay between receipt of a redemption request and payment of redemption proceeds.
<b>Within three months or more of request</b>	In target market	
<b>At issuer's discretion</b>	In target market	

### DISTRIBUTION CONDITIONS/RESTRICTIONS

Channel	Distribution condition
